

New Product: Mini-One G-Tubes

New Product: Mini-One G-Tubes

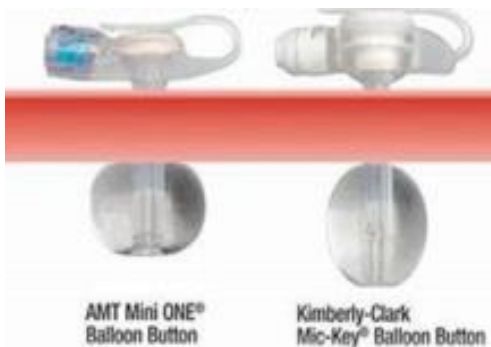

Audience: All staff who care for patients with G-Tubes

Objective(s)

Staff will identify the difference between Mini-One vs Mic-key G-tubes and accessories.

Overview Statement

Our providers and patients now have two choices of G-tubes: the Mic-Key and the new Mini-One. Accessories and ordering numbers will differ between the Mini-One and Mic-Key G-tube products.

Key Educational Points

- Two choices in G-tubes: Mini-One (AMT) or Mic-Key G-tube (Kimberly-Clark)
- **SAME G-tube care** for Mini-One and Mic-Key
- Feeding accessories are **NOT** interchangeable between tube types.
- If patient needs Prograf: use the Luer syringe to administer directly into port
- OR will continue to provide a second tube for patients with newly placed G-tubes
- The Mini-One glows in the dark!
- See Page 2 for ordering information

New Product: Mini-One G-Tubes

Supplies

- Special order: Lawson #344921-Adapter winged Luer w/syringe and Lawson #339352-Set feed G-JET 12in 2 ENFIT Y
